- N1-N3 in Mechanical Engineering
- Short course in automotive/diesel mechanics (advantageous)
- Trade Test not required, but if working towards (advantageous)
- Valid Drivers Licence

### Experience:

- 0-2 Years experience in a workshop or mechanical environment.
- Exposure to Diesel Engines (Earthmoving)
- Basic servicing and repairs.

### Technical Skills:

- Basic understanding of Engines, Hydraulics, Electrical Systems.
- Ability to assist with servicing, repairs and maintenance
- Use tools safely
- Perform inspections and report faults accurately

### Key Skills & Competencies:

- Willingness to learn and grow
- Strong work ethic and reliability
- Ability to work under pressure and in a team
- Good Communication Skills

### Remuneration
